

STAFF ENGINEER INTERN

McCAFFERTY BRINSON
consulting

McCafferty Brinson Consulting, LLC (MBC) is seeking a motivated individual to assist with drinking water projects in our South Florida office for a full-time Staff Engineer Intern, with 0 to 4 years relevant work experience, based in our Fort Lauderdale office.

- Woman-owned engineering consulting firm founded in Broward County, Florida, in February 2006.
- MBC is a small, growing firm that can provide a unique opportunity to learn from the company owners and staff various aspects of the engineering consulting business as well as an opportunity to grow with the company.
- The position would entail daily involvement with the Project Manager on a variety of municipal contracts featuring drinking water treatment design and construction projects.
- **MBC offers:**
 - Engineering design
 - Construction administration services related to drinking water treatment systems
 - Pumping and transmission systems
 - Utility infrastructure
 - Regulatory Compliance and Funding
 - Treatment Process Startup and Optimization
- **Expected Qualities of a Candidate**
 - Bachelor of Science degree in Engineering
 - 0 to 4 years of relevant work experience
 - Interest in water treatment design and construction administration
 - Academic knowledge in AutoCAD and Revit
 - Academic knowledge in hydraulics
 - Registered Engineer Intern in the State of Florida, or ability to obtain licensure within first year of employment.

Please send resumes to contact@mccaffertybrinson.com. For additional information about MBC, please visit our website www.mccaffertybrinson.com.
